INFRASTRUCTURE

State of the art manufacturing plants located in bommanahalli industrial area, Bangalore. Spread across 22000 sqft, We keep up with the changing demands of our clients by maximizing resource utilization at the plant, continually updating latest machineries and enhancing the design quotient of our products, day after day. Modern manufacturing equipment and a stringent quality control system, both of which are supported by our manufacturing process specialization, results in a product mix above the ordinary, at prices that are affordable and unbeatable.
